Where will the money go?

Venue costs

Food

Printing shirts

Paying artists

Stipends for volunteers

Winter 2018

Sponsorship details

Thank you for your interest in supporting the Open Eugene Festival this winter. Part hack-a-thon, part conference, part exhibition. We are working with learners & leaders to help citizens of Eugene open projects, improve collaboration, and inspire the community. More details evolving at <http://openeugene.org>

Participants can learn from Mozilla Open Leaders the basics of running open projects. Various local projects from teams at the University of Oregon (Open Data), Downtown Eugene artists (Open Hardware), Local Software Companies (Open Source Software) will be "Working Open" through the weekend in hands-on workshops. Bring your own projects and we'll help you pick the right open source or creative commons license to help share your work with the world. Bring your energy and we'll help you collaborate.

Open Eugene Fest will be happening Friday November 30th and Saturday December 1st 2018.
